school trips 2019-20

Organising a school trip?

We're here to help.

We know it can be time consuming to plan a school trip, that's why we work hard to ease the pressure on teachers.

Choose NST for:

- The widest range of inspiring tour programmes & student events matched to the latest exam board specifications
- A tailor-made quote with no hidden costs & flexibility to hold arrangements until deposits are collected
- FREE trip launch kit & educational resource packs
- A dedicated, educational travel expert to take care of all the details & create a smooth-running daily itinerary
- My Tour Manager - our award-winning online trip organiser - to give teachers 24/7 access to their school trip information and help keep on track of admin
- Instant access to trip information whilst on tour with our award-winning travel app
- 24-hour emergency cover, audited accommodation & transport, a wide choice of assessed excursions & FREE preview visits to assist with risk assessment planning
- On-the-ground support from NST's representatives, guides & escorts in many of our destinations
- Reassurance for parents & teachers with NST's Locate My Trip providing live updates on a group's tour location
- Financial protection - NST are fully bonded through ABTA & ATOL
- More than 50 years' experience of creating expertly planned school trips that suit the individual needs of each group

We're the travel company of choice for over 35,000 group leaders. We've been awarded the Feefo Gold Service award, an independent seal of excellence for delivering exceptional experiences, as rated by real customers.

With you every step of the way

Taking learning beyond the classroom is widely known to help young people build strong, positive relationships and independence, as well as improving academic achievement. A school trip often brings a sense of experience and enjoyment to learning, supporting the wider character development and resilience students need to deal with life's inevitable challenges.

At NST, we passionately believe in the importance of enriching educational experiences outside the classroom. That's why you won't find a wider choice of destinations, inspiring visits, educational guided tours, and hands-on workshops anywhere else. This year, we've also introduced our LIVE! student events led by industry professionals, giving students a bridge into the world beyond the classroom as they prepare to become work-ready.

When it comes to organising a school trip, we understand just how much time and energy it can take on top of teaching. What's more, many schools are not aware that when they arrange transport, accommodation, and other services directly themselves, they'll have all the responsibilities of a travel company - both legal and financial - under the new Package Travel & Linked Travel Arrangements Regulations 2018.

That's where NST can help. We're an LOfC accredited provider, giving you peace of mind that all the elements of your trip have been carefully checked on your behalf - a view supported by the DfE's recent recommendations on selecting a travel provider.

We're the travel company of choice for over 35,000 group leaders, but we know that what counts is the help and support that you receive. That's why we're committed to doing our absolute best to provide you with the experience and support that you need to match your requirements and budget and create a school trip that your students will remember long after they return to the classroom.

Steve Craven

ORLANDO	8-9
LONDON	10-11
AMSTERDAM	12
BERLIN	13
PARIS	14
BRUSSELS	15
LOIRE	15

Stopsley High School

Geneva

This compact metropolis offers fascinating visits that will open your pupils' minds to the immense possibilities of science. CERN offers innumerable learning opportunities for your pupils, however there are also fantastic visits in the surrounding area which explore key study themes including evolution, theoretical physics, particle matter and the history of science. What's more, we'll create an itinerary to suit your group's specific learning requirements to ensure that you get the most from your time in this intriguing city.

At a glance

Getting there

We offer a range of options to get you to and around your destination – and back home again – with ease, including executive coach via ferry or Eurotunnel, rail, Eurostar and flights.

When to go

Geneva is a year round destination. It is a busy business city, so it's quieter for groups over the weekend.

Good to know

- By staying in a hotel or youth hostel, you'll receive a FREE Geneva Transport Card which will allow you to use the whole Geneva public transportation system for the length of your stay for free. This includes buses, trams, trains, and yellow taxi-boats.
- French is the predominant language spoken in Geneva.

Local currency

Swiss Franc (CHF)

prices start from

£285_{pp}

including visits

BOOK BY END OF MAY & SAVE £10_{PP}

Price includes: 2 nights' B&B accommodation, return flights from a London airport (other departure airports are available), visits shown in suggested itinerary, extensive group travel insurance, 1 in 10 free place ratio. Price shown based on 25 paying passengers travelling February 2020.

Blackpool Sixth Form College

Learning outcomes

- How science works
- Ideas about science
- What are the basic building blocks of matter? Particle physics
- The history of science
- Theoretical physics
- How did the universe begin? Evolution of the universe

PRICING KEY FOR VISITS **FREE** Free £ Under £5pp £ £ Under £10pp £ £ £ £10pp+

FREE

CERN

There's nothing quite like seeing physics in action to spark pupils' interest in science. The world's largest particle physics research laboratory will do just that, taking your pupils on a journey into science. Home to the Large Hadron Collider (LHC), at CERN pupils will learn about this gigantic scientific instrument.

Guided Tours

Group guided tours of CERN follow a variety of themes (depending on the day/availability) and comprise of an introduction followed by a film and visits to experimental areas. All tours are guided by staff members involved with CERN. The duration of a tour is approximately 3 hours.

Exhibitions

Groups can extend their visit to permanent exhibitions which will be explored without an escort guide:

- **Universe of Particles** - a fascinating look at a famous international particle physics laboratory which explore science from the Big Bang to the present day.
- **Microcosm** - pupils will explore the world of CERN and discover technologies used by scientists.

Please note all guided tours and exhibition visits to CERN are free, must be booked directly with CERN and are subject to availability.

FREE

HISTORY OF SCIENCE MUSEUM

Housing a collection of scientific instruments, this museum allows pupils to put today's science into perspective and better understand the evolution of certain disciplines and techniques such as astronomy, microscopy, gnomonic (the development of sundials and similar instruments), electricity and meteorology.

Don't miss...

- **UNITED NATIONS** £ £
A unique opportunity to see the United Nations at work. Learn about the United Nations Office in Geneva through guided tours, presentations and observing working sessions in action.
- **INTERNATIONAL RED CROSS MUSEUM** £ £
This exhibition offers an exciting and adventurous insight into contemporary humanitarian action.
- **GENEVA OBSERVATORY** FREE
Receive a short talk and observatory tour ending where the telescope is located.
- **SIG ENERGY PAVILION, VERBOIS DAM & SIG SOLAR 3** FREE
Learn the amazing story of electricity; its production, distribution and environmental impact.

FREE

THE MUSEUM OF NATURAL HISTORY

This museum offers a fascinating insight into natural history and ecology using displays of life-size models. Features an overview of the history of Earth and the human race and geology of the Geneva region.

- **BOIS-DE-BAY TREATMENT PLANT** FREE
Take a guided visit around one of the largest treatment plants in Switzerland.
- **JET D'EAU FOUNTAIN** FREE
One of the city's most famous and iconic landmarks.
- **LAKE GENEVA BOAT CRUISE** £ £
Relax and enjoy the scenic beauty of the lake with a fully narrated tour.
- **BERN** FREE
Visit the Einstein museum in this historic city, which is dedicated to his life and work as he discovered the Relativity Theory.

Iceland

SEE MORE ONLINE 

The ultimate playground for scientists, Iceland offers unique and unforgettable opportunities for pupils. Your group will experience everything this land of fire and ice has to offer, from dramatic volcanic lunar landscapes and glaciers, to natural hot springs and spouting geysers! Rich in challenges and learning opportunities, this tour will perfectly complement your group's studies.

At a glance

Getting there We offer flights to Iceland from a variety of departure airports.

When to go April to October offers the best weather for visiting.

Average temperature October to April: 0 to 7°C, May to September: 10 to 14°C.

Flying time Flights from London – 3 hrs. Flights from Manchester - 2 hrs 30 mins.

What to pack Walking boots with firm grip, warm, waterproof, wind resistant jacket, waterproof trousers, hat/balaclava, warm gloves, thermals, clothes that can be layered, shoes for indoor use, swimsuit and towel for the Secret Lagoon or the Blue Lagoon.

Local currency Króna

Language Icelandic is the national language, although English is spoken by most Icelanders.

Enriched learning NST's Field Studies Guides can assist with programme delivery, tailoring your group's experience to your learning needs.

prices start from

£589 pp

BOOK BY END OF MAY & SAVE **£10 PP**

includes visits & NST Field Studies Guide

Price includes: 3 nights' half board accommodation, return flights from a London airport (other departure airports are available) & overseas airport transfers, visits including coach transportation (South Shore day, Golden Circle day), services of an NST Field Studies Guide, extensive group travel insurance, 1 in 10 free place ratio. Price shown based on 40 paying passengers travelling in February 2020.

Learning outcomes

- Geothermal, glacial and tectonic activity
- Flora and fauna
- Habitat
- Chemistry of hot springs
- Forces
- Energy use and technology – how man can harness natural sources of energy
- Biology, chemistry, and physics

FREE Free

£ Under £5pp

£ £ Under £10pp

£ £ £ £10pp+

INCLUDED IN PRICE SHOWN

GOLDEN CIRCLE ADVENTURE

Tour the Hellisheidi power plant, then visit Kerid, Gullfoss waterfall, and witness Strokkur in action. Finally, visit Thingvellir National Park.

INCLUDED IN PRICE SHOWN

Culceth High School

SOUTH SHORE ADVENTURE

Visit the Skógafoss and Seljalandsfoss waterfalls and the black volcanic beaches and basalt-columned cliffs of the Dyrhólaey coast. Then take the rare opportunity to see Sólheimajökull.

£ £ £

SECRET LAGOON

A great alternative to the Blue Lagoon, the Secret Lagoon offers a more authentic Icelandic hot springs experience.

Don't miss...

• REYKJANES PENINSULA TOUR £ £ £

Visit lake Kleifarvatn, stop off in the Seltún geothermal area and at the Graenavatn explosion crater before visiting Litli Eldborg.

• LAVA TUBING £ £ £

Explore the geological history of Iceland from within! Venture inside a vast underground network of lava caves to explore stalactites and different rock formations.

• PERLAN - WONDERS OF ICELAND £ £ £

See, feel and live Iceland's many natural wonders all in one place.

• ICE CAVES £ £ £

Iceland's most significant, new attraction; the ice tunnel located on Europe's second largest glacier, Langjökull. This is a once-in-a-lifetime visit where your group can experience a magical journey.

• WHALE WATCHING £ £ £

Catch sight of whales and dolphins out on the North Atlantic Ocean. April - September only.

• NORTHERN LIGHTS £ £ £

Groups visiting September - March, may be lucky enough to see one of nature's great displays: a mysterious, multi-coloured show in which the night sky is suddenly lit up like a lava lamp.

• GLACIER WALK £ £ £

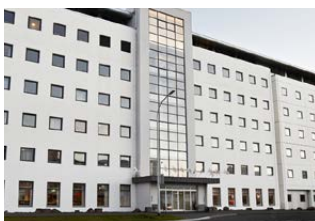

This walk is a great glacier adventure where you can try for yourself how it feels to walk on ice. This is the stand out visit for many of our groups.

• BLUE LAGOON £ £ £

Take a soak in the steamy 40°C waters which are fed from a nearby geothermal power plant and rich in many minerals. An ideal first or final day activity.

SEE MORE ONLINE 

We've shown you just a few of the best destinations to enhance and enrich science learning, but if you still haven't found your ideal destination, take a look at some of the other exciting places that you can visit to bring science to life...

Brussels

The iconic **Atomium** monument is a fascinating hub for your pupils to visit, and a place where they'll undoubtedly gain a greater understanding of science. Pupils can become astronauts for the day and study space exploration at the **Euro Space Center**, visit the largest dinosaur gallery in Europe at the **Museum of Natural Sciences** or take a voyage of discovery through breath-taking images taken by space telescopes at the city's **Planetarium**. We'll tailor-make your itinerary to suit your group's specific learning requirements, to include the best visits and attractions at great value for money.

Loire Valley

The Loire Valley is without doubt one of Europe's most diverse regions in terms of its landscape, history, châteaux, vineyards and culinary traditions, with plenty of educational opportunities for your science pupils to enjoy. NST can tailor an itinerary that also includes **Futuroscope**, a truly unique educational theme park and a highlight for school groups visiting the region. The **Aquarium du Val de Loire** is also a popular visit for science groups where pupils can study the diversity of the Loire's aquatic life and touch the fish in the 15m tactile pool.

Futuroscope

Ready to start planning your next learning experience?

SCIENCE LIVE!

at **Disneyland**
PARIS

Science LIVE! Disneyland® Paris Monday 9th March 2020

An immersive event designed to encourage students to develop their curiosity about the world around them, giving them insight into how science works, and appreciation of its relevance to their everyday lives.

Our LIVE! student event combines:

Expert speaker presentations

- covering how science progresses through hypothesis, practical experimentation, observation, theory development and review.

Q&A session

- to support an understanding of the nature, processes and methods of science.

Team park challenges

- encourage students to apply observational, practical, enquiry and problem-solving skills, in a new and unique learning environment.

Science LIVE! is suitable for KS4 students - meeting exam board specifications for AQA, OCR, EDEXCEL, WJEC & SQA.
